Group - G27

Feedback from the evaluation panel

1. We should focus more on the IoT device.

2. Mentioned some typo mistakes.

3. Impressed with the development of the mobile app but we have to work more on the web app.

4. NodeMCU & Arduino Mega serial communication connection is not established

Action plan

1. Focus more on the IoT device and work on giving more priority to it.

2. Eliminate typos in the next presentation by going through the content thoroughly.

3. Work more on the development of the web app and complete it by the deadlines.

4. Study more on serial communication and complete the IoT device by the deadlines.
